# ANIMAL KINGDOM PLANNING MADE EASY!

Shows? Rides? Animal paths? What exactly is there to do at Disney's Animal Kingdom?

This one-page guide provides information to help you decide which attractions are right for your family, which ones require advanced planning or FastPass reservations, and what time of day you might want to enjoy each one.

In addition to basic facts like **minimum height requirements** and **FastPass availability**, this guide indicates whether the queue and the attraction itself are **indoors**, **outside**, or **covered**. Use this information to determine which rides should be avoided in the afternoon heat and rain.

**Queue interest** prepares you for boredom and help you decide which attractions you want to FastPass or only attempt with a short posted wait time to avoid a boring line.

**Wait indicators** give you an idea of the line length that these attractions draw.

The **attraction types and descriptions** provide a basic description of each attraction, how your family might be split up, and just how comfortable those theater seats may (or may not!) be.

This guide does not include **character meetings**. Check the Times Guide in the park for character locations and meeting availability times.

Let's start planning your Animal Kingdom park day!

Traci

ATTRACTION	FP	MIN HEIGHT	QUEUE	ATTRACTION	INTEREST	WAIT	TYPE	RIDE VEHICLE / ATTRACTION DESCRIPTION
<b>DISCOVERY ISLAND</b>								
<input type="checkbox"/> It's Tough to be a Bug!	•	any	indoors	indoors	1	1	3D movie	individual cushioned seats

<input type="checkbox"/> The Boneyard		any		covered			playground	multi-level playground and sand play space

## ADDITIONAL **GUIDE EXPLANATION**

### **QUEUE AND ATTRACTION COVERAGE**

- **indoors** - entirely climate-controlled indoors
- **outside** - entirely outside, recommended to avoid during rain or afternoon heat
- **covered** - outside but covered so there is protection from rain and direct sun
- **in/out** or **in/covered** - combination of coverage

### **QUEUE INTEREST**

- **1** - boring, nothing of note to do or see while in line
- **2** - there are some interactive elements in the queue for entertainment
- **3** - highly interactive queue that is practically an attraction itself!

### **WAIT**

- **1** - Wait times rarely exceed 20 minutes and these are often walk ons in the morning and the last hour. FastPass isn't needed for these rides that offer it.
- **2** - Mid-day wait times regularly reach 30-50 minutes. Lines remain short during the first and last hour of the day, so ride then or use FastPass mid-day.
- **3** - Wait times regularly reach or exceed one hour. Rope drop these or use FastPass.

### **TYPE**

- **Omnimover rides** are slow, continuously-moving rides that load from a moving platform. **Slow-moving rides** and boat rides are individual vehicles that stop to load.
- Most **shows** run continuously every 10-20 minutes. **Timed shows** take place at set times of day as indicated in the day's Times Guide available at the park.
